We are happy to announce that there will be two opportunities to hear Holocaust survivor stories at 6:30 p.m. at the Main Library this month. Conrad Weiner returns to talk about his experience as a young child in a labor camp on Thursday, April 2 and Barbara McCoucha will share her mother’s story with us on Thursday, April 16.

CONRAD (in photo with his mother and grandmother) was born in Storojinetz, a small town in Bucovina, once part of Romania (currently part of the Ukraine) in 1938. After a brief occupation of the region by the Soviet Army in 1941, Romanian authorities in alliance with German forces, started a massive campaign of annihilation and deportation of Jews of Transnistria. Conrad’s family was taken by cattle car, a journey of two days and one night, and then forced to walk for two weeks in snow and mud to the forced labor camp, Budi. Conrad was 3 1/2 years old at the time.

While in Budi, Conrad fell very ill. Many of the prisoners advised his mother to give up. Her response was that a mother does not give up on her child. Eventually she was able to nurse him back to health and in 1944, at the age of six, Conrad and the 300 surviving prisoners at Budi were liberated by the advancing Soviet Army and repatriated to Romania.

In 1946, Romania became a Communist country. It wasn’t until July 1960 that the paperwork was approved and Conrad’s family was able to come to America. He settled in Cincinnati and graduated from Indiana University with a B.A. in German and Russian Language and Literature. In 1968, he obtained a M.B.A. from the University of Cincinnati on a full-ride scholarship.

BARBARA tells the story of her mother, Vera Gutin, a Holocaust survivor. Vera’s earliest memories begin with the events of Kristallnacht in her hometown of Trier, Germany. After experiencing the violence of Kristallnacht, Vera’s family relocated to nearby Luxembourg and eventually France in an attempt to stay ahead of the Nazis. Vera would spend the duration of the war in Vichy, France passing as a French child with the help of OSE (Oeuvre de Secours Aux Enfants or Children’s Aid Society), the French Resistance, and the care of a small French village.

Barbara uses Vera’s personal notes, photos, and documents, presenting the story her mother shared before her, with additional information Barbara gathered on her own journey to Europe in 2018. Barbara is a senior support specialist at a local elementary school and spends her weekends volunteering as a storyteller in her temple’s library. She hopes her mother’s story of survival, risk, and the care of strangers, will inspire people today to care for strangers in need.
Call Kelsey at 292-3393 at least one week in advance if special accommodations are needed.

A look into the U.S. Census
and its contributions to our rich history
By Hillary Delaney, Local History Associate

It happens with every new decade; a stranger appears on the doorstep. Clipboard in hand, this person has come to ask probing questions about you and your family. Don’t be alarmed; it’s just census time again.

Boone County was not yet formed at the time of the first federal enumeration census in 1790, and Kentucky had just begun the process of becoming a state. Under the leadership of the first Secretary of State, Thomas Jefferson, Census Marshalls from each judicial district were to obtain basic information from every household. Names of the head of household were noted; all others were counted within the following categories: free white males (divided into over or under 16 years old), free white females, all other free persons and slaves. This basic query remained largely unchanged through 1840.

In 1850, several significant changes were made to the US Census. The names of all free people in each household were recorded, along with sex, age, race, place of birth and occupation. Several questionnaires were also added to collect slave, mortality, agriculture, manufacturing and social data, expanding what could be learned about the residents and the growth of and changes in the county.

An example of what the census tells us can be found by tracing the records of an individual. Eight-month-old Benjamin Floyd first appears in the 1850 census in District 1 of Boone County with his parents and an older sister. By 1860, Ben’s family owns a farm in the Florence precinct and aside from his older sister, he has three younger sisters; all were attending school except the youngest. In 1870, Ben’s father was still farming, and listed as a widower. The eldest and youngest of Ben’s sisters were not in the home (other records show the oldest married, the youngest died, as did Ben’s mother). In 1880, the census showed that Ben was farming in the Florence precinct, and married to a woman named Ella.

With the exception of a few scattered records, the 1890 census was destroyed by fire. The loss of this record creates a 20 year gap for many, and exemplifies the importance of census records to researchers.

In the 1900 census, we learn that Ben’s birthday was in October, he was married for 22 years and he and his wife had a 17-year-old daughter. In 1910, Ben still owned a farm on the “Union Pike” (U.S. 42) and his wife was listed as the mother of one living child (no longer at home). Not much changed for Ben and Ella in 1920, but by 1930 it was revealed that the couple still lived on the same farm and owned a radio. In 1940, 90-year-old Ben was listed as a widower renting a home on Price Pike in Florence. Further research shows Ben lived to 92 years.

Boone Innovation Lab Spotlight

Have you checked out our quilting machine yet?

By Samantha Geiger, Creative Space Support Associate

The Handi Quilter, Simply 16, Little Foot Quilting Machine is a wonderful addition to the Boone Innovation Lab. The machine is used almost daily. The Comfort Quilts group loves to use it in their monthly meetings at the Hebron Branch. In just one session, they were able to quilt ten small quilts in under four hours! Want to give it a try? Call to make an appointment. All it takes is your finished quilt top, basted or pinned onto your backing and batting, some thread, and 50 cents for the needle. We will clamp your quilt onto the frame, and off you go! This is a free-hand motion machine, which means all motions and designs are controlled by you, and it features a stitch moderator, so the faster you move, the faster it will stitch!

Before your appointment, make sure you have your thread and your quilt basted or pinned together. Spray baste works best since the pins can get in the way of clamps. To insure you can get all corners of your quilt stitched, please add a 4-6 inch leader onto the top and bottom. Please note: variegated and metallic threads will not work in the quilting machine.

Featured in the photo is Annette Kern, working on a comfort quilt.
Curt Bessette Art Gallery

The Curt Bessette Art Gallery is located on the first floor of the Main Library. It features work by regional and national artists as well as special, themed exhibits. On exhibit April 21-May 29  Don Huff: Painter of Memories & Daughter, Pattie Purnell

Meet DON HUFF at the Main Library on Tuesday, April 21 at 6:30 p.m. Don is a prolific oil painter and octogenarian who has been painting for over 70 years. Learn about his background and view his work. Light refreshments will be served.

Don Huff began his art career 70+ years ago as a sign painter for the US Navy in World War II. He studied fine arts at the Art Academy of Cincinnati and the University of Cincinnati. Don creates his prolific paintings in oils with incredible realism, detail and bright colors. His work is on display as far away as New York, Canada and California. Don likes to make custom portraits of people in motion, using skills in their own surroundings to make the painting uniquely their own. He favors painting subjects from the local community such as local train stations, river boats and historic sites. Don’s historically valuable imagery will be sure to bring back fond memories.

Pattie Purnell is a 2nd generation artist skilled in pen & ink illustration, architectural renderings of homes/historic buildings, silhouette portraits, watercolor/acrylic portraits and landscape paintings. Inspiration from her father, Don Huff, has led her to pursue a successful career in art.

El Día de los Niños / El Día de los Libros
Fecha: Domingo, Abril 26. 1:00-3:00pm
Lugar: Florence Mall
El Día de los Niños / El Día de los Libros, mejor conocido simplemente como Día, es una celebración de niños, familias y lectura. Enfátiza la importancia de la alfabetización para los niños y niñas de todos los orígenes lingüísticos y culturales.

En 1996, Pat Mora, autora de libros infantiles y aclamada a nivel nacional, propuso vincular la celebración Latina del Día del Niño con la del Día Internacional del Libro logrando así, entre muchas otras cosas:

- Celebrar a los niños y conectarlos al mundo del aprendizaje a través de libros, historias y bibliotecas.
- Fomentar el desarrollo cognitivo respetando las culturas y los idiomas que se hablan en los hogares de cada niño y niña.
- Reconocer y honrar la cultura, el patrimonio y el idioma como herramientas poderosas para fortalecer a las familias y las comunidades.

¡Traiga a su familia e invite a sus amigos y celebre con nosotros este DÍA especial! Habrá actividades divertidas para todas las edades, manualidades y se obsequiarán libros nuevos a los niños y niñas que atiendan. (¡No tarden en llegar que se van a acabar!) ¡Todo Gratis!

¡Se Habla Español! (for our Spanish-speaking friends)
